

Environmental Policy

Keenan (Recycling) Ltd (the Organisation) recognises the importance of environmental protection and sustainable development and is committed to operating its business responsibly and in fulfilment of its compliance obligations. It is the Organisation's declared policy to operate with and to maintain good relations with all regulatory bodies.

The organisation is committed to minimising the impacts of its activities on the environment and in compliance with legal requirements relating to the provision of recycling operations and manufacture of compost and associated products, contract screening, shredding and related services and commercial food waste collections and supply of biofuel.

The Organisation operates an Environmental Management System that has gained BS EN ISO 14001: 2015 certification.

It is the Organisation's objective to carry out all measures reasonably practicable to meet, exceed or develop all necessary or desirable requirements, to protect the environment and to continually improve the Environmental Management System to enhance environmental performance through the implementation of the following:

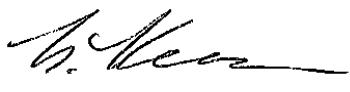

1. Assess and regularly re-assess the environmental effects of the Organisation's activities
2. Training of employees in environmental issues
3. Minimise the production of waste
4. Minimise material wastage and promote sustainable procurement of resources.
5. Minimise energy wastage
6. Promote the use of recyclable and renewable materials
7. Prevent pollution in all its forms
8. Control noise emissions from operations
9. Minimise the risk to the general public and employees from operations and activities undertaken by the Organisation.
10. Application of best available technologies and more efficient ways of working.
11. Reduce the impact of travel and transport within the company.
12. Efficient use of water.
13. Increased efficiency throughout the supply chain.
14. Reduce the impact of travel and transport within the company.

Top management demonstrates leadership and commitment with respect to the Environmental Management System by:

1. Taking accountability for the effectiveness of the Environmental Management System
2. Ensuring that the Environmental Policy and Environmental Objectives are established and are compatible with the strategic direction and the context of the Organisation
3. Ensuring the integration of the Environmental Management System requirements into the Organisation's business processes
4. Ensuring that the resources needed for the Environmental Management System are available
5. Communicating the importance of effective environmental management and of conforming to the environmental management system requirements
6. Ensuring that the Environmental Management System achieves its intended outcomes
7. Directing and supporting persons to contribute to the effectiveness of the environmental management system

8. Promoting continual improvement
9. Supporting other relevant management roles to demonstrate their leadership as it applies to their areas of responsibility.
10. Systems provision to ensure statutory requirements and best practice guidelines are identified, communicated, and complied with.

This policy is communicated to employees, suppliers and sub-contractors and is made available to interested parties.
